

## A&D Statements

Statement	How can you find out?
<p>Given any two angles of a triangle, you can find the third angle.</p> <p><input type="checkbox"/> Agree <input type="checkbox"/> Disagree <input type="checkbox"/> Unsure <input type="checkbox"/> It depends on</p> <p>My thoughts:</p>	
<p>45 degrees, 50 degrees and 90 degrees are all interior angles of the same triangle.</p> <p><input type="checkbox"/> Agree <input type="checkbox"/> Disagree <input type="checkbox"/> Unsure <input type="checkbox"/> It depends on</p> <p>My thoughts:</p>	
<p>If three sides of a triangle are labelled a, b, and c. <math>c^2</math> is always equal to the sum of <math>a^2</math> and <math>b^2</math>.</p> <p><input type="checkbox"/> Agree <input type="checkbox"/> Disagree <input type="checkbox"/> Unsure <input type="checkbox"/> It depends on</p> <p>My thoughts:</p>	
<p>If only one angle measurement is given for a triangle you can determine the other angle measurements.</p> <p><input type="checkbox"/> Agree <input type="checkbox"/> Disagree <input type="checkbox"/> Unsure <input type="checkbox"/> It depends on</p> <p>My thoughts:</p>
